

Academic year 2025/2026

Courses offered by the programme

Génie Physique et Matériaux (GPM)

Semester(s) :

Curricula are organized in groups of courses (Unités d'Enseignement (UE)), consisting of several courses (Éléments Constitutifs (EC)). An EC is a teaching module including lectures (cours magistraux (CM)), tutorials (travaux dirigés (TD)), laboratory work (travaux pratiques (TP)), projects (PR), conferences (CONF), personal work (TA) and possibly other pedagogical activities (DIV). Some internships (stages (ST)) are compulsory

Commonly used abbreviations

CM : Lectures

TD : Tutorials

TP : Laboratory Work

CONF : Conferences

TA : Personal Work

PR : Project

ST : Internship

DIV : Miscellaneous

Conferences	GPM05-CONF
Number of hours : 15.00 h	0.50 ECTS credit
CONF : 15.00 h	
Reference Teacher(s) : LETOUBLON Antoine	

Objectives :

Professionals from a wide range of companies hold conferences on the various career options open to students in the MNT department. The guest speakers describe their companies' engineering work and market structure. The aim is to help students in their choice of career.

Content :

Career guidance through conferences.
